

Canadian Citizenship Test Kit Flexible Study Schedule

How long you spend on each session depends on how much time you have before your test, and how quickly you are learning. We recommend that each session last about one week, but let your progress be your guide.

Session	Notes	Learn	Study	Practice
1	Establish your study routine: make decisions about where, when, and how you will study.	Read <i>Discover Canada</i> from front to back. Read to understand, but do not stop to research or figure out problems you have. (That comes later.)		
2	In your own notebook, write down important information, as well as any information you have trouble with, or have questions about.	Read Unit 1: Rights and Responsibilities. Go slowly and carefully, and do your best to understand everything you read. Some of the information in this chapter is explained in more detail later in <i>Discover Canada</i> . Remember to use the extra information that is provided on Canadian Citizenship Test Kit to help you understand what you are reading. Hover over the underlined words or phrases with your mouse to see the extra information.	Use the Review 1: Right and Responsibilities activity in the Study section to remember the important points. Download the audio file for Unit 1 and listen to it several times.	When you have completed all of the Learn and Study activities, do Quiz 1 at least 4-5 times. You should try to consistently get 14 or 15 correct answers on each quiz. Review the areas you have trouble with.
